

## Nancy Tankersley

### All About Shapes

| ✓                      | <b>Supplies</b>   |
|------------------------|---|
| <b>Paints:</b>         | Professional quality, avoid student grade<br>Cadmium yellow light, Hansa Yellow or Lemon yellow ( or any cool yellow)<br>Cadmium yellow medium or Indian yellow ( or any warm yellow)<br>Cadmium red light or naphthol red (warm red)<br>Alizarin crimson permanent<br>Ultramarine blue<br>Prussian blue or cerulean blue<br>Burnt sienna<br>Titanium white (large tube)<br><i>Optional: Sap green, quinacridone red</i><br>I use mostly Gamblin. The most important thing is to have both a warm (moving toward orange on the color wheel) or cool (moving towards blue) version of each of the primary colors red, blue and yellow. |
| <b>Panels:</b>         | At least two panels per day<br>Size 8x10 up to 11x14<br>I don't recommend stretched canvases outdoors because the sun can shine through the canvas from certain angles and make it hard to see values.  |
| <b>Brushes:</b>        | What you prefer is fine but here are some basic recommendations<br>#12 white hog bristle filbert<br>#8 white hog bristle filbert<br>#6 hog bristle flat<br>#2 red sable ( can be synthetic) round<br>One medium flexible palette knife for both painting and scraping the palette. Or you may buy one for each purpose. I like the long diamond shaped best.  |
| <b>Mineral Spirits</b> | I use Gamsol because it is the best odorless product - but outdoors you can go with less expensive brands   |
| <b>Medium</b>          | Not necessary but if you like one chose the fast drying types such as Gamblin Galkyd Light or Gamblin Solvent free gel  |
| <b>Other</b>           | Paper towels<br>Mineral spirits holder<br>Baby wipes<br>Plastic trash bags for dirty paper towels<br>Portable ease<br>A chair if you like to sit when painting<br>Sun visor<br>Sun screen<br>Bug repellent  |
